

A Cercle Paul Bert event

On 10 & 11 April 2010, Rennes gets into roller mode for the **28th 'Rennes sur Roulettes'**.

Organised by the **Cercle Paul Bert** in collaboration with **Rennes City Council**, 'Rennes sur Roulettes' celebrates during this weekend roller skating in all its forms: races, street skates, roller acrobatics, beginners' sessions, shows and demonstrations, and lots of other surprises are waiting for you at the Roller Village on the **Esplanade Général de Gaulle**.

New for 2010: Come and try the timed S'MI Roller half-marathon on Sunday morning. On your own or in teams (Student, Business, and Association Challenges), take up the challenge!!

If you want a different way of discovering Rennes, or if you quite simply want to relax with your family, take part in our **famous street skates**.

A highlight not to be missed - **the International Inline Speed Skating Marathon**, which counts towards the **World Inline Cup** on Sunday afternoon. The world's elite will be at the gates of Brittany.

If your interests are more 'aerial', take part in the Roller/BMX street contest, which counts towards the FISE Experience 2010 tour.

So get your skates on! It's time for you to start training if you want to be ready – that is unless you are waiting for the valuable advice of our CPB Roller instructors at the specially-adapted beginners' roller area.

Keep in good shape!!! This year 'Rennes sur Roulettes' is stressing the importance of **health and nutrition** with a village that is given over to this subject. On the programme are fitness tests, tasting sessions, activities, quizzes, and games and competitions.

'Rennes sur Roulettes' is ready and waiting for you so as to write a new page of this popular sporting saga, which started life in 1982!
