The 100% Urban Sport Event!!! Rennes sur Roulettes - 24 > 25 May 2008

The only French stage of the World Inline Cup.

Organised by the Cercle Paul Bert, Rennes City Council, and Champion Supermarkets, 'Rennes sur Roulettes' will be once again be a key event among the world inline speed skating classics as it welcomes the world's elite at the gates of Brittany. Come along to encourage and support these top-class athletes who speed along at an average of 40km/h.

Our Breton friends certainly will not be left out of the action!!! The streets of Rennes will be open to them during these two days so that they will be able to indulge in the joys of roller skating by participating in the 'roller randonnée' street skating events which are open to everyone.

There is the 'fun run' version, the famous '**Randonnée Populaire**' or, for the more serious rollerbladers, the '**Rennes Rollers Radiance**' – so there's something for everybody.

The CPB Roller Club will be organising special **sessions for beginners** so that they too can put their skates on.

Finally, for the more daredevil, events, shows, and competitions are all on the programme. Of particular interest will be the '**Breizh Roll' 08 by Kaki Crazy**', a street sport contest which is open to roller bladders, BMX riders, and skateboarders. This event forms part of the FISE Experience Series 2008.

'Rennes sur Roulettes' goes green!!!

In addition to a packed sporting programme, 'Rennes sur Roulettes 2008' is becoming environmentally-friendly!!! Various activities are being organised to help all of us reduce our negative impact on the environment.

A hotchpotch of green activities: Selective waste sorting with Rennes Métropole, free public transport (bus and metro) for the volunteer helpers, a car-sharing scheme, special free car-parking spaces for the organisers at the Arsenal car park, 'randonnées roller' street skating events from the neighbouring towns and villages on Sunday to join up with the events' main location, a special guest appearance of the Paris Police Roller Brigade who will be giving advice on road safety, and a 'village' which will be aiming to raise awareness of subjects such as sustainable development.

So whatever the weather, whether windy, rainy, or sunny, 'Rennes sur Roulettes' is ready and waiting for you at the Boulevard de la Tour d'Auvergne (Mail Anne Catherine) so that everybody can celebrate the 26th year of this tremendous popular and sporting adventure.
